8 Independents	✓	8 Independents have joined forces against coal and gas. Check their individual policies on other issues on links to their websites .									

? = No available policy, ambiguous public statements.

* ✓ = Strong position on koala habitat - very likely to support but no public statement yet.

How to ensure your vote is counted and sends a message to the next parliament about environmental issues.

Choose minor parties or independents with strong environmental policies as your first choice and put your preferred major party lower down. Your first choice candidate may be elected but if not your vote will flow to the major party.
